

Ohio ENT and Allergy Physicians are pleased you have chosen them to assist in your care. The physicians feel that patients presenting to our offices with sinus, allergy, throat, hearing or voice complaints require a thorough examination of that specific area. In some cases, this can only be accomplished through the use of diagnostic tests or procedures. These tests and procedures are separate from the physician's office consultation and carry a separate charge. The following is a list of the tests and procedures that may be performed or ordered.

- | | |
|--------------------------|--|
| Audiogram (hearing test) | Balance Testing |
| CAT Scan | Laryngoscopy |
| Nasal Endoscopy | Sinus debridement after sinus surgery |
| Video Laryngostroboscopy | Voice Evaluation |
| Voice Therapy | Minor surgical procedures (including biopsies) |

The following procedures are often considered surgical procedures by insurance companies and may be applied to your deductible or coinsurance:

- | | |
|---------------------------------------|--|
| Laryngoscopy | Nasal Endoscopy |
| Sinus debridement after sinus surgery | Minor surgical procedures (including biopsies) |
